Judge Webster's mother is reported quite ill with pneumonia.

J. G. Farrington came in from the Esmeralda soda marsh last evening.

At the expiration of his term of office Sheriff Dunlap, of Lauder, will settle at Humboldt Bay, California.

The Reno Guard will hold a regular meeting Monday night, at which a full attendance of the members is desired.

The ditch case just decided in the District Court disposes of all the jury cases to be tried at this term of Court.

The delinquent tax list in Humboldt county will not exceed \$1,700, which is a pretty good showing for a big county.

Two fires were started in Eureka the other day by defective stovepipes, which fact should be a warning to Reno people.

The Reveille says that at Ledlie, the terminus of the Nevada Central Railway, near Austin, the mercury went down to zero Wednesday morning, and water pipes were all frozen up.

Derby and Chamberlain returned from Pyramid yesterday afternoon. They say the mine is looking well and the furnace running nicely. Some matte will be shipped in a few days.

The only excitement at the Court House yesterday was the frantic efforts of several county officials to capture a lonely butterfly found sporting about in the sunshine of the Court House yard.

The Austin Reveille says "under the fee system, which goes into effect January 1st the county officers will not be apt to make much unless a great deal more legal business is done than usual."

The examination of F. M. Payne in shooting at I. T. Gibson Sunday morning was heard in the Justice Court yesterday. The defendant was held to answer with bail fixed at \$1,000, which was given.

It is reported that John W. Mackay is hunting up some mines in Mexico. It is known that he has put considerable money in the Quijotoa District in Arizona. It looks as though he did not expect to get much more out of the Comstock.

The Director of the United States Mints, in his annual report, estimates the production of the mints in the United States, in gold and silver, the past year, at \$29,000,000. The same report states that \$20,000,000 in gold and silver was used in the manufacture and repair of articles of ornamentation, in the same period.

Dick Sides swears that Cleveland must give him the Washoe City Post-office or there will have to be a reorganization of the Cabinet. Three postage stamps were sold last week at the Washoe office and Dick says he is as capable of handling the receipts as anybody, and as he is a Democrat and Mark a Republican the change must be made on the 5th of March.

A Full Sixty Days.

The Carson Tribune says: "Notwithstanding that many of the State papers are calling for a short session of the Legislature, there is not the least doubt but that the coming session will last the fully allotted sixty days. A great majority of the members elect are too anxious for the per diem to entertain any proposition for a short session."

Thoroughly Renovated.

The painters and paper hangers of Charley Coleman's barber shop and bath rooms, have finished a thorough renovation, the rooms having been repainted and elegantly grained, and the ceiling covered with sky blue paper, dotted with gilt stars. He is still running three chairs, the veteran tonsorial expert, Nick Hammersmith, still standing behind one of them, where he can be found during the coming winter.

ante rooms in the front portion of the hall, and to keep it open day and evening for the accommodation, not only of members of the company, but the public as well. A janitor will be employed to take charge of the hall and see that lights and fires are always ready. It will be just such a quiet resort as this town needs.

California State Minerals.

The fourth annual report of State Mineralogist Professor Henry G. Hanks, of California, a volume of about 400 pages, is in the hands of the State Printer and will soon be ready for distribution. After a short sketch of the history of the State Mining Bureau and a paper on the general resources of the State, there will be a catalogue of the minerals of California, so far as known, arranged alphabetically. The more important metals, gold, silver, copper, lead and coal and petroleum are fully treated, and the statistics of production, general methods of assaying and analysis given.

A New Kind of Incubator.

Down in Long Valley on the Fatley ranch there is a large warm spring which is utilized in a novel manner in the hatching of chickens. A large box is placed in the waters of the spring and into this box are placed the number of eggs desired to be hatched. The water is of just sufficient temperature to make a perfect natural incubator and being of a uniform degree of heat does not require but little attention, and the eggs are hatched with better results than can be done by any old hen. It is certainly a curious method, but it beats all the patent incubators ever invented.

The Tilden Case.

for dead, as he rallied enough to use his left hand and write this note: "I am dying. Indian Charley did it." The pencil and paper was found on the floor by his side. The Indian is well known. Carrant creek is in a remote neighborhood and no further particulars can be had at this date.

The Forty-ninth Congress.

S. F. Bulletin.

According to the latest computations, the House of Representatives of the Forty-ninth Congress will consist of 141 Republicans and 184 Democrats, a Democratic majority of 43. The Senate, counting the two Virginia Readjusters with the Republican party, will consist of 43 Republicans and 34 Democrats, a Republican majority of 9. This is assuming, of course, that the States of New York and Connecticut, which chose Republican Legislatures at the late election, elect Republican successors to Lapham and Platt. It is one of the curiosities of the recent contest, that although the Democrats elected their candidate for President they lost thirty seats in the House of Representatives and two in the Senate. Both the latter slipped away from them on this count, being the seats now occupied by Slater, of Oregon, and Farley, of California. Six States return solid Democratic delegations, Alabama, Arkansas, Florida, Georgia, Mississippi and Texas, while in six other Southern States there is but one Republican returned to each. Thus ninety members, or nearly one-third of the entire House, represent a portion of the country from which there are but six Republicans.

An Albany dispatch says:

The Republican party leaders have not as yet decided upon whom they will concentrate their influence for United States Senator. They are looking over the ground and propose to hold a consultation at an early day. Chairman Warren of the State Committee, General Sharpe, H. G. Barleigh and ex-Congressman Swart and Davy are for President Arthur, but Warner Miller, Ellis H. Roberts and George B. Sloan are opposing that scheme. The other candidates for the place are Frank Hiseock, William M. Evarts, Levi P. Morton, Whitelaw Reid, Chauncey M. Depew, Sherman S. Rogers and ex-Governor Cornell. Silas B. Dutcher says positively that he will not be a candidate and has some doubts about Mr. Cornell being found in the race when the time comes for election. There are those who believe that ex-Senator Thomas C. Platt is to try once more for election.
